Conclusions and Strategic Advisory : What we don't know about Dubai's economy

- Many things can contribute to boost the countries overall economy but what is essential Source or Model of this Countries Economy if that is not followed the entire economic system may slow down?

“When a Country is Self Dependent it's protected from Dependency”

“When we hate somebody we may not able to see the truth about him /her, so we remain in Dark and Stay away from the Blessings what Allah wants us to have it i.e. a follow a Path or Model to create the Self Sustainable Economy to remove any Dependency i.e. Debt than rely on somebody to feed” that's why many people may hate Dubai and it's Leadership and may Criticize but they may never learn from this Muslim Country who has proved that it's Economic Model is the best in the World, since World Economy is driven by Oil and Gas where not only an Oil Producer is the Contributor but a Medium who is helping to flourish the Middle East, not only Oil & Gas Economy but also it shows us how to diversify the Oil & gas Money or Asset into many sectors and which governed the Economy around the world that this contribution is much essential for the world Economy since Money is useless, unless you know how to convert into a Cash Flow”

Dubai's Economic Model: Conclusions and Strategic Advisory

No.1 Source: To know the Economic Model, we need to go the No.1 SOURCE i.e. BANKING SECTOR, WHICH REGULATES AND GOVERNS THE CURRENCIES , where the Banking Sector is the No.1 Sector whose is well protected from any recession, disasters, uncertainty in the Market and the Country, because

“THE CURRENCIES ARE BACKED BY GOLD, IT’S NOT a PAPER CURRENCY NOR IT’S SYSTEM GENERATED RANDOM ALGORITHM OR DIGITS NEITHER ANY HYPOTHESIS NOR IT’S A BOND” – when anybody in the World follow the advised of Rasool Allah –SAW(PBUH) i.e. Sunnah in any matter or any problem or in any areas , he or she will have that blessings which he or she followed, obey and implemented, as Rasool SAW(PBUH) suggested the Currency must be Fundamentally Diner or Dirham which is either Gold or Silver Coin, and Dubai has followed that and that’s why it’s economy is protected by the God

Dubai's Economic Model: Conclusions and Strategic Advisory

No.1 Fixer : Leadership is the No.1 Fixer for any Country to flourish and grow and stand independently on it's feet, so behind the Economic Independent Model there is Strong Leadership and a Hiqma i.e. Vision of the Future and Wise Decision Making

Note: When a Khalifa or Leader roams around the Market, meet people discussing their problem, fix it, maintain the equal opportunities for every people who either makes Business or Income, strongly monitoring the market so that that pricing policy should equal for every business owners, protecting it's people and safety for their life, strong laws and order and intelligence system, world class infrastructure and resources, Specially focusing on Children and Women, Constant growth in Science and technology, hard working, Managing good relation across neighboring and global countries, following Medium way of religion, let people respect other religion and protecting them and their sentiments so that people may have good idea about Islam, mediate problem among brotherhood, Self Less and people oriented who let them leave a Normal life and focuses on Society building, preparing nations from any disaster from future, Focusing on Education and Healthcare, protecting own culture and people and avail good and stable life and economic independence for them etc. All this as a leaders required to make a Country build from the Scratch

Dubai's Economic Model: Conclusions and Strategic Advisory

No.1 Breaking Point : Unity among Arab Nations is very crucial since the Economic backbone is Oil and Gas no matter the Gold is backing the currencies but it's for Market risk mitigation and control purpose, more ever any Country needs the constant cash flow to regulate it's Market , so then without helping each other nations nobody is able to succeed and when there is a crack it might effects the Economy, Safety & Security of Entire Arabs, so Rasool SAW(PBUH) advised in the matter of Conflict or difference in opinions that forgive your brothers and maintain a Blood Relations, one must be agree to adjust and leave his partial Haq or demand or rights, where let others to fulfil the promise in return, we must remember that when there is a different of Opinions and if Shaytan enter it may destroy the Unity, so who is the ideal for Leadership, is an Excellent Mediator among Brothers or any People, so avoid disputes, it's wise according to the importance of the current Time

Thank You !
