No.1 Fixer: Education and Risk of Child's Future

No.1 Source: Children are Fundamental to society and the Education they receive through the early years is the Foundation or the Pillar of their future and we can assume it from Nursery to Class 10. So, the Fundamental Education must be backed with all Fundamental Subjects i.e. the child needs to learn more and slowly about Science, Math, English, language, Social Science, Geography, History etc. while along with extra curriculum, but when you introduce “Islamic” word this perspective will change the direction of the education for the child and your focus will shifted to madrasa, Islamic Education or Islamic School and you probably more wanted your child to get Quran and Sunnah based knowledge based education system which may divert the focus of your child to a more religious and spiritual development rather than following the necessity of worldly knowledge which is Fundamental Knowledge the kids must need it, so as soon as you integrated the Religion + Education it’s the No.1 Source of deviation for your kids learning Process and they may land in other area which has more danger for their future growth and success, no matter you are in which country and which institution is running the school, as long as they follow the these fundamental curriculum it’s sufficient for your kid’s fundamental learning, now as a true believer that you need to guide your kids to a direction of Siratal Mustakeem i.e. Quran

+The Life of Prophet Muhammad SAW(PBUH) i.e. Sunnah that to explain how Allah created the knowledge of everything and for a purpose so that we may travel and get the knowledge so that we must have up to date knowledge and information of this world, and guide your children for Salah i.e. Prayer and slowly teach them Good moral and Akhlaq i.e. Mannerism.

No.1 Fixer: The leadership of a Principal is the No.1 Fixer where he or she has to guide the proper and healthy education system and recruitment of adequate Teachers and Staff so that they can all combinedly focus on child upbringing. Since the children get nourishments from the Teachers only then the role of society development at the hands of teachers and that's why teachers must have the qualification and understanding about the challenges and role play in education system while they must understand the student and guide them carefully with more Patience and gentle and motherly way since after Covid 19, the only affected part in society is the "Children" and their "mental wellbeing", then they must be gently cared, sympathically attached, the teachers must not to become rude, strict ,partial, egoistic, bad manners, physical abuser, verbal abuser etc. and all these the

Principal has to make sure the Quality Monitoring of the Teachers and their periodic behavioural evaluation as well as frequent Psychological Counselling so that, they must not bring any negativity and offence to children, otherwise this could be No.1 Source of reason that the child might get Mental illness and very fragile in merit and future development.

No.1 Breaking Point: When as an authority of the institution, you introduce Politics in the Education system, then the entire education system is at risk, since Politics ate up the fruit of any educational system and “due to the influence of a Politician and their nature they can attract their Opposition and their focus on your school and in between their ego and rivalry, only school, teachers and children’s suffers and in many cases the institution had to close it and student often being betrayed from the value education from the well-reputed institution so then they had to shift to an institution probably lack of adequate education system and leadership”
